

The Great LA River CleanUp

COVID-19 Guidelines & Safety Protocols

Physical Distancing & Masking

- Double-layer masks covering nose and mouth must be worn at the CleanUp site at all times.
- Physical distancing of six feet or more will be observed by all staff and volunteers not from the same household.
- All materials necessary to participate (trash bags and gloves) will be sent or made available to all registrants ahead of the event. Registrants **must** bring these pre-provided materials to ensure a contactless, physically-distant event.
- Special consideration: FoLAR will be providing all registrants with branded neck gaiters. Gaiters may be worn as masks **ONLY** if they are double layered, or folded to make two layers over the nose and mouth.

Occupancy Limits

- All CleanUp sites will be limited to 50 volunteers at any given time, to be monitored by the on-site lead. Limits may be changed in accordance with LA City and County guidance.
- CleanUp sites which are operating with two-hour shifts will limit each volunteer to 90 minutes of cleanup time to allow for time in between shifts.

Hygiene & Cleanliness

- All registrants have been told not to come to volunteer if they have symptoms consistent with COVID-19, have tested positive for COVID-19 or have been in contact with a case of COVID-19 and to follow DPH guidance for self-isolation or quarantine as applicable.
- Hand sanitizer stations will be available on site for volunteers and staff.
- High-touch surfaces must be wiped down frequently and all shared equipment and tools must be disinfected after each use.

Attendance Tracking

- Contact details (email and phone number) will be collected for all registrants and may be used for contact tracing purposes.
- Volunteers will not be allowed on site without showing proof of registration. We encourage volunteers to wear their FoLAR provided gaiters around their necks as proof of registration. Digital confirmation email will also be accepted.
